

## Recruitment letter

Dear Colleagues/Members,

You are invited to participate in a survey-based project titled “The use of static computer-aided implant surgery (s-CAIS) among Australian and New Zealand dental professionals”. This project is being conducted by Dr. Seung Hyun Kim. This research will be undertaken as a part of the degree of Doctor of Clinical Dentistry (Periodontics) at the University of Adelaide, under the supervision of A/Prof Sushil Kaur, A/Prof Alan Broughton, Dr Andrew Cheng and Prof Richard Logan.

This survey has the following aims to examine the knowledge, opinions, and previous experiences regarding s-CAIS. This research project has received ethics approval from the University of Adelaide (H-2021-213).

**Prior implant experience is not essential. To be eligible to participate in this study, you must be a dental professional currently practicing in Australia or New Zealand (including post-graduate students).** Your participation is voluntary, and the survey may be withdrawn any time prior to the submission of the survey. More detailed information about the research can be found in the Participant Information Sheet attached. The survey should take 5-10 minutes to complete, and your privacy will remain confidential throughout the project. The submission of the survey will be regarded as your consent for us to use the data you have provided for our research purposes. The data will be used as part of the Doctor of Clinical Dentistry degree that will be made publicly available through the University of Adelaide.

Following the completion of the survey, you may enter an **optional draw for one of three \$100 Woolworths gift vouchers**. If you wish to enter the draw, please follow the prompts at the end of the survey which will open a separate page, where you will be asked to provide an email address. Receiving the email address will be taken as an indication of informed consent for the draw. On the 15th of June 2022, the three prize-winners will be chosen at random, and the gift vouchers will be sent to the email address provided, by researcher Dr Seung Hyun Kim. Email addresses received will not be used for any other purposes and will be stored securely. If you do not wish to enter this draw, pressing “done” on the final page will submit the survey (without participation in the draw).

Please follow the link to complete the survey:
